

Kirkham Building System, Inc.

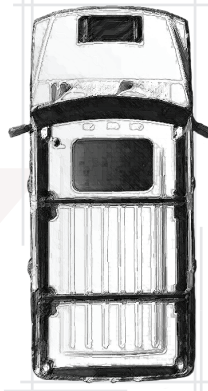

Preliminary Floor Plan: Illustrations

Please use the illustrations below to facilitate the planning of your new **KBSI** building. The illustrations, along with the layout grid, will help you determine the building size that will best suite your needs. Cut out the illustrations below and arrange them on the layout grid. Be sure to allow sufficient walking space as you organize to ensure all of your possessions are easily accessible (we suggest at

least 3 feet wide for walking space). Our team will then work with you to determine the best configuration and layout of your new **KBSI** structure.
